IS THE TRUTH IRRELEVANT

By CLEM APPLIGATE

On July 15, 1936, in the British House of Commons, Mr. Oliver Locker-Lampson, M. P., a close friend of a family of International bankers, urged the then Attorney General to institute legal proceedings against the authors or publishers of a paper containing allegations of crime against a minority group of British citizens.

Subsequently the publisher was sentenced to 6 months imprisonment. In his defense during the trial the publisher attempted to produce documentary proof of all that he had written. The judge refused to permit the defendant to present his evidence and ruled that "the truth of a libel is no defense."

Enlarging upon his ruling the Attorney General said: "It is correctly laid down that the defendant is in no case allowed to prove the truth of a seditious libel as a justification for having published it." He added, "That is the law as I understand it."

When the decision of the court was questioned later a paper was written in which the attorneys said: "It was deemed sufficient under the law that the statements had been written and that they rendered His Majesty's subjects (of the minority group) to suspicion, affront and boycott, and so amounted to a Public Mischief."

In America today there is not a newspaper that dares to print factual news concerning this minority group and its activities even when such activities are inimical to the interests of the vast majority or to the welfare of the United States as a whole. And, what is more, the newspapers do not dare to mention any member of this minority group in a derogatory way, or hold him up to public condemnation or ridicule.

Why is this situation permitted to exist? For the simple reason that this minority group holds the power of boycott and through a multitude of connections it is able to have advertising withheld from such newspapers and even to cut off its supply of news print.

CULTURAL OBLITERATION. THE
PRIME TARGET: LOS ANGELES**

LOS ANGELES (EXCLUSIVE). Christian America might well demonstrate extreme alarm at the obviously now stepped-up campaign of Jews, Zionists or not, with their hordes of bankers, loan sharks, lawyers, rabbis, politicians, press-agents and "Fifth Amendment" evokers, literally to capture numerous U. S. communities.

While a mighty effort is being aimed at frequently smogbound, 900 square-mile metropolitan Los Angeles, reports reaching here clearly indicate similar drives are being waged all over the North American continent, more especially where pioneering Christian families planted settlements which after decades of orderly development are now ripe for alien conquest and exploitation.

Angelenos may well, of course, look to their own immediate doorsteps.

WHOM THE GODS WISH TO DESTROY

by RT. REV. WM. C. McGRATH

Ten years more! That's about all. Fifteen, maybe, at the outside! By then the Reds will have taken over America. No war. No hydrogen bombs. No mass slaughter—that is till after the victory has been won. (Editor's note: Many other authorities believe that the take-over will occur sooner.)

* * *

The coup d'etat, in course of accomplishment even while you are reading these lines, will be engineered to final success by the entrenched and untouchable traitors in high places, aided and abetted by their strategically placed cohorts in the nerve centers of the nation. The men who sold five hundred million Chinese into Communist slavery will finally betray America. The saboteurs who ordered treacherous and ignominious defeat in Korea will at last achieve the utter destruction of the nation that has too long stood between Russia's Communist leaders and a bloody Communist world. It will be the fulfillment of the prophecy made by Lenin in 1923: "FIRST WE WILL TAKE EASTERN EUROPE, THEN THE MASSES OF ASIA, THEN WE WILL ENCIRCLE THE UNITED STATES WHICH WILL BE THE LAST BASTION OF CAPITALISM. WE WILL NOT HAVE TO ATTACK. IT WILL FALL LIKE AN OVERRIPE FRUIT INTO OUR HANDS."

Who are these traitors? In what key spots are they located right now? Apparently we are not to know until it is too late. It is worse than useless, it means political or military suicide for any individual to attempt to track them down. For the end is ever the same. Character assassination, disgrace or death. From Patton to Forrestal to Wedemeyer; from MacArthur to Lawton to McCarthy our shores are littered with broken men, among them some of the greatest Americans of our generation. It was McCarthy who came nearest to success. He was "dangerously" close to pay-dirt in his attempt to unearth the mysterious forces avowed to encompass our destruction. That was why his disgrace had become an absolute necessity if traitors were to be left in peace. It would serve, too, as a warning and—they hoped—an effective deterrent to the Jenners and McClellans and J. Edgar Hoovers who might be stupid enough to continue this expose of treason. That was why a petition against his censure, signed by nearly ten million Americans, was so brazenly ignored. Public opinion must not be permitted to count any more, as witness the treatment accorded General MacArthur who was tendered the greatest public acclaim ever given to any living American and who is now the forgotten man.

Verdict of an Expert

The foregoing is not my inexperienced opinion. This grim prospect for Americans was revealed to us in strictest confidence by two outstanding experts on Communist tactics of subversion and whose names I may not reveal. They are firmly convinced that this nation is doomed; that nothing really effective is being done or, for that matter, really can be done to arrest the progress of impending disaster. Ten to fifteen years, they say, before the massacres in the streets and convents and churches and seminaries; be-

It took the Communists 25 years to eliminate this great American military leader.

fore the brainwashing and the diabolical exile and see to it that the mighty U. S. torture that disintegrates the human personality and the boatloads of pathetic broken humans, the legions of the damned, heading Northwards towards Siberia and death. In China, since its "liberation" by the Communists, fifteen million innocent people have been done to death. But in China, a Red officer recently told a departing missionary, they were not cruel enough. "We will be one hundred times as cruel" he said, "when we take over America."

Not only will this verdict of the experts not be generally accepted but it is next thing to impossible today to convince people as a whole that America is even in danger. We never "had it so good." Our material standard of living is the highest the world has ever known. The ticker tape reveals an all time high in the stock market. The flashy two-tone new cars are jamming our highways as never before. Guaranteed annual wage is relieving the worker of the spectre of periodic unemployment and some of the humblest of homes can boast of a television and often a two-car garage. "In God we Trust," long since decorating our coins, has been added to postage stamps and may be added to paper currency but the fact is that there never was in America's history a time when the nation trusted so little in God. Meanwhile, the enemy has not been idle. In season and out, till the very "soul within us has died" have we been inoculated and anesthetized with subtle, soporific party-line slogans about peace and security and co-existence. His efforts have
